

SIMPLY NUTRILITE SUPPLEMENTS

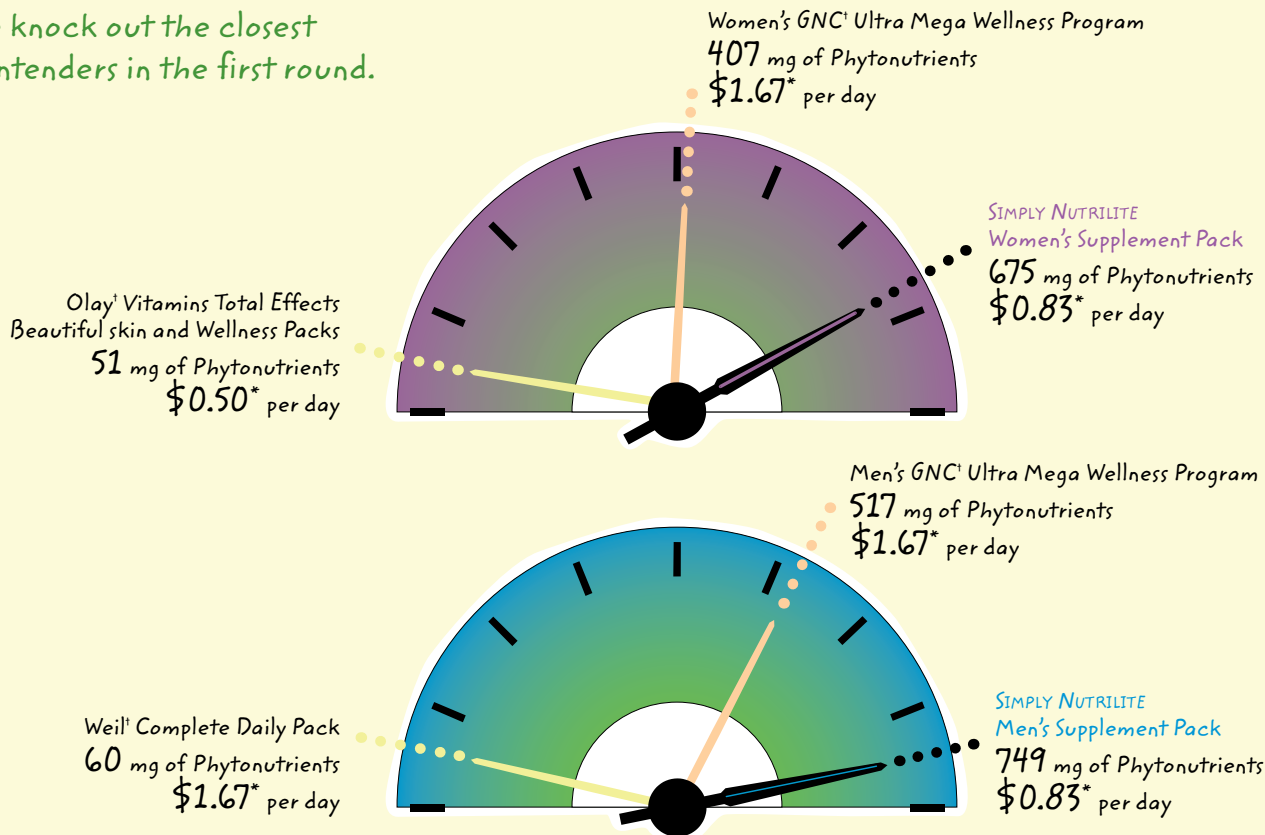

Nutrients every body needs to help stay healthy

Quiz: What's a Phyto?

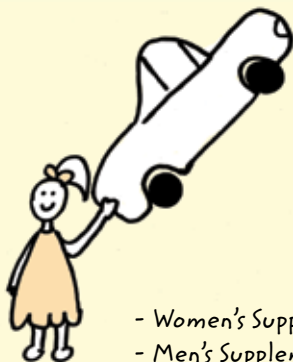

- A. A dog from the planet Mars B. A cry from the crowd at ringside C. An abbreviation for phytonutrients, nutritious chemicals from plants

Sadly, the answer's C. Pretty dull, huh? We could dazzle you with science but that wouldn't be nice. So just know that Nutrilite has 70 years of experience blending key phytonutrients with vitamins and minerals, to make supplements that are out of this world. Looks like SIMPLY NUTRILITE™ Supplements are way, way ahead of the competition in the phyto game. And did you notice how much the competitors want to charge for a daily serving? Ouch!

We knock out the closest contenders in the first round.

SIMPLY NUTRILITE is a new line of bars, drinks, and supplements to help you eat and be healthier.
