

# SIMPLY NUTRILITE TWIST TUBES

Put simply, they give your body what it needs.

Seriously, how do you compare cool? If SIMPLY NUTRILITE™ Twist Tubes could wear sweet shades, get tattoos, watch MTV, and carry around iPhones, they would. Instead, all they ask is that you carry them around so they can feel cool. Good thing it's so easy to do.

There's nothing much like it in the marketplace, so we've compared the nutritional benefits in each great-tasting flavor to what you'd find – or not find – in other companies' drink crystals. But as far as the cool-o-meter, our competitors are more like pocket protectors, while SIMPLY NUTRILITE Twist Tubes are off the chart.
